Experience

System Engineer Intern — Infosys Mysore Dec 2025 – May 2026

Certificate

- Completed intensive **Java** Generic Training covering OOP principles — inheritance, polymorphism, abstraction, encapsulation, exception handling, and collections.
- Acquired hands-on knowledge of **DBMS** and **MySQL**: relational design, normalization, SQL queries, joins, and database management.
- Completed Stream Training in the Microsoft stack: **TypeScript**, **C#**, **Angular**, **.NET**, and **Entity Framework Core** for enterprise-grade full-stack development.

Frontend Intern — Evaluate Health Vizag Jul 2025 – Nov 2025

Certificate

- Developed production-level mobile applications using **React Native**, **TypeScript**, **Redux**, and **Redux-Saga**.
- Built reusable card components, reducing unnecessary re-renders and measurably improving rendering performance of the application.
- Coordinated with the backend team to integrate **REST APIs** for data storage and retrieval within an Agile frontend workflow.

Projects

EchoRealm *View Project*

- Built a full-stack social web app with 3 core modules (*EchoLink, EchoShout, EchoMumble*) using **React**, **Redux**, **Node.js**, and **MongoDB**.
- Integrated **Socket.io** for real-time notifications and designed a modular, feature-based architecture for scalability.
- Deployed via **Vercel** and **Render** with smooth **CI/CD** pipelines.

AgroGuide *View Project*

- Built an agricultural assistant platform using **React.js** and **Flask**, integrating machine learning models for crop intelligence.
- Implemented **disease detection**, **crop recommendation**, and **yield prediction** using **Random Forest** and **CNN**-based models.
- Added **multilingual support** via **i18next** and ensured seamless frontend–backend communication through proper **CORS** configuration.
